GUM-CHEWING GIRLS STRIKE

Give Up Positions in Preference to Quitting Habit.

Chewing gum was the cause of a strike of thirty-five girls employed on the fourth floor of the Samuel Cupples Envelope Company at Sixth and Cerre streets yesterday afternoon. The girls, who gave up their situations claim that the forewoman, Josephine Gelseman, objected to their chewing gum.

gum.

Another reason why the girls refused to remain at work, it is said, is that Miss Geisbeman threatened to discharge Julia Opp. assistant forewoman.

Miss Geiseman, however, denies that she objected to the cirls chewing gum, but tha strikers insist that she ordered them to abstain during working hours and lunch hour.

EAST SIDE NEWS.

POSITION ON CIRCUIT BENCH RIPE PLUM FOR POLITICIANS.

Republicans Are Scrambling Over Each Other for Sent to Be Vacated by Judge Schnefer.

The smell of political ple has ascended the nostrils of many of the Republican law-yers of East St. Louis and Belleville, who believe that they are capable of filling and should be appointed to the vacancy soon to the circuit judgeship, when Judge Martin W. Schaefer of Belleville re-

The job will only be for a couple of months, but it is figured by the politicians that the man who is appointed has almost a cinch on the Republican nomination for the

office in June.

that the man who is appointed has almost a cinch on the Republican nomination for the office in June.

When Judge Schaefer made the announcement that he would resign his office to take up private practice, there was a scurrying among Republican lawyers. All sorts of fences, some badly broken and dilapidated, were soon piaced in charge of the political carpenter, and all sorts of arguments have been used by the friends of the dozen or so candidates for the job. as to why their particular candidate should be appointed to the vacancy when it is made.

Friends of the candidates, it is said, are largely responsible for the political handsprings. The result, it is predicted by not a few well-posted men who are thoroughly acquainted with Governor Yates, will be in the appointment of a man not a resident of St. Clair County.

Several of the candidates for the office have been prominently identified with the administration, and they believe that they should be given the preference. The antiadministration men are urging a general meeting of the Republican members of the bar of St. Clair County and the indorsement of one of the lawyers of the county. It is a difficult matter to name all of the candidates and the prospective candidates for the office. In Belleville the names of George C. Rebhan, Frank MacConaughy, Charles W. Thomas and Richard Roplequet have been given much prominence. Mr. MacConaughy seems to have the best of it there, as it was he who made all of the trouble in the St. Clair County Republican convention and attempted to force the adoption of the Hopkins resolution.

In Eagt St. Louis a petition is being circulated in the interest of Benjamin H. Canby, who served several terms as East St. Louis City Court Judge. George, A. Crow, who has been identified with the administration and is one of the fighters for the Governor in this section, is also a candidate. Jesse M. Freels is spoken of as one of the most capable and best fitted men in the county for the position.

Then it is understood that there are a num

missed by State's Attorney James A. Farmer.

The evidence introduced at the trial was considered weak, and it was expected that the jury would acquit the man. Instead, the jury found him guilty and sentenced him to a life term.

Attorney Heimberger immediately made a motion for a new trial, which was granted by Judge Schaefer, before whom the first trial took place. Judge Schaefer then released the negro on his own recognizance. Yesterday a motion to dismiss was allowed by Judge Schaefer, with the consent of Attorney Farmer.

BILL TO ENCOURAGE AMERICAN MARINE.

Congressman Fitzgerald's Measure Provides for System of Rebates Instead of Subsidies.

14th St. and Pennsylvania Ave. Washington, Jan. 16.—Representative Fitz-gerald of New York to-day introduced in the House a new bill to encourage the merican merchant marine by means of rebate of duties, instead of by subsidies, as provided for in the Frye ship subsidy bill, now buried in the House Committee on Merchant Marine and Fisherles, Mr. Fitzgerald's bill provides for a rebate of 10 per cent of the duty imposed upon all goods coming from foreign countries, when car-ried in vessels of American registry. In speaking of his measure to-night Mr.

Fitzgerald said: "The bill proposes a simple way to upbuild our merchant marine. It avoids all sub-sidies and at the same time gives American ships tremendous advantages over vessels of all other nations. The bill is simplicity itself. It provides that upon all imports into the United States from foreign couninto the United States from foreign countries, or from the foreign possessions of this country, where foreign vessels are permitted to engage in the carrying trade between those possessions, and this country, there shall be allowed a rebate of 10 per cent of the duty imposed by law upon the goods carried in vessels of American registry.

Three things are accomplished. Oneron tariffs are lowered; American ships and the ship building industry are encouraged and protected; and cheaper freights are assured upon imports and exports. It is apparent to any one that the rebate would be divided between the freight payer and

be divided between the freight payer and freight carrier.

"During the fiscal year ending June 30, 1902, the United States collected in custom duties \$254,444,708. Had there been sufficient ships of American registry to have carried the goods imported to this country they would have been aided by rebates amounting to \$25,434,770. This would have enabled them to practically monopolize the carrying trade of the world. No inconvenience would have resulted to the United States since our surplus revenues for the same fiscal year aggregated the enormous sum of \$21,237,375. The enactment of this bill into law would do violence to no Democratic theory of government; it would avoid the vice of all proposed subsidy schemes, and it would insure what all An ericans carnestly desire, the supremacy of our merchant marine."
